

Questions:

1. We need API keys for the proxy server, CAPTCHA, and scraping websites. So, are you going to provide it to us?
2. Some websites have the same Price for all states and regions. Should we take and list of them?
3. We found data for New York, given below for Real estate photographer/videographer Google Business listings with pricing

```
{
  "United States": {
    "New York": {
      "New York": {
        "services": {
          "Photography": {
            "price": 172.5,
            "interpolation_used": false
          },
          "Videography": {
            "price": 1147.6666666666667,
            "interpolation_used": false
          },
          "Drone Photography": {
            "price": 212.5,
            "interpolation_used": false
          },
          "Drone Video": {
